^{* 2021} Amended Budget as of 8/13/2021

Significant Changes vs. 2021

- Increase of approximately \$653,000 mainly to fund existing positions, pay for performance, movements within the salary structure, parking increases, and medical cost adjustments
- Decrease of approximately \$183,200 related to the transfer of 1.00 FTE position to City Engineering in the General Fund
- Increase of \$5,260,634 in CIP for planned projects
- Increase of approximately \$1.4 million in Stormwater Grant Appropriation for anticipated grant awards

^{**} The Grants Fund includes appropriation for new grant funding, and may include re-appropriation of prior year grants not awarded, as well as local match. However, the CIP table on a subsequent page of this narrative reflects only new grant funding. See Grants Overview for more information.

Stormwater Enterprise - Overview

The primary focus of the Stormwater Enterprise is to implement programs to responsibly manage the City's stormwater system. This includes the management of the City's Municipal Separate Storm Sewer System (MS4) Permit, management of the City's drainage basins, stormwater development reviews, stormwater capital construction projects, stormwater infrastructure maintenance, as well as administration of the Enterprise.

Management of the MS4 Permit

 Administers the City's Municipal Separate Storm Sewer System (MS4) Permit to ensure compliance with federal and state stormwater regulations including education, pollution prevention, inspections, development documentation review, and construction controls.

Drainage Maintenance

- Evaluation and implementation of drainage improvements to address street flooding, drainage way repairs and failing infrastructure.
- Maintenance of the City stormwater system includes maintaining detention ponds and pipes, and removal of debris from inlets, culverts, and channels. In addition, crews maintain, repair, and stabilize municipally owned stream banks.

Stormwater Development Reviews and Inspections

- This includes review and approval of all drainage reports, municipal drainage discharge permits, drainage basin planning studies, grading and erosion control plans and narratives, and all other drainage related documents.
- Inspection of the stormwater infrastructure occurs to ensure compliance with the City's criteria.

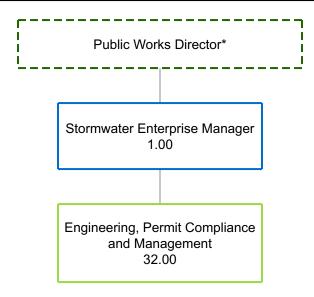

Capital Construction Projects

Plans and manages stormwater capital construction projects.

Business Administration

 Supports the fee assessment and collection, billing coordination, customer service and GIS support along with budgeting, revenue and financial tracking and reporting.

Stormwater Enterprise - Organizational Chart

* The Public Works Director position is funded as part of the City Engineering budget in the General Fund. This position is not reflected in the position count in the Budget Summary on the following page.

2022 Strategic Plan Update

See the Public Works narrative for the department's 2022 Strategic Plan update.

The sections below and on the following page provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2021, and changes occurring as part of the 2022 Stormwater Enterprise Budget.

ָב <u>.</u>	Increase in potential grant funding	\$1,370,000
Į,	Total For 2022	\$1,370,000

^{**} The Grants Fund includes appropriation for new grant funding, and may include re-appropriation of prior year grants not awarded, as well as local match. However, the CIP table on a subsequent page of this narrative reflects only new grant funding. See Grants Overview for more information.

[†] In April of 2017, voters approved the retention and spending of \$6 million that exceeded the TABOR revenue limitation, received by the City during fiscal years 2016 and 2017 (appropriated in 2017 and 2018 respectively). The ballot item required that funds only be used for stormwater projects located within and benefiting the City of Colorado Springs. The totals shown for 2019 and 2020 Actuals include spending of the \$6.0 million for the TABOR Revenue Retention on stormwater projects, along with amounts that were previously budgeted in projects at the time when the stormwater function was in the General Fund.

¹Each year the City and Pueblo County will prioritize the CIP projects for the following year. These projects are needed to meet the City's obligations under the federal Clean Water Act, its MS4 discharge permit and/or the Intergovernmental Agreement between the City and Pueblo County dated April 27, 2016.

The specific projects for the current budget year are listed below:

Cottonwood Creek at Austin Bluffs

Cottonwood Creek near Yorkshire

Emergency Projects

Flying Horse Pond 1 Retrofit

Middle Creek at USAFA

Monument Branch Phase II

North Douglas Channel at Sinton

North Nevada Drainage Improvements

Pine Creek Channel Phase II

Sand creek Pond 2 Retrofit

South Douglas at Chestnut

South Douglas at Sinton Trail

West Fork Sand Creek at Wooten

West Fork Sand Creek Emory to Platte

West Fork Sand Creek to Palmer Park

^{*} The funding of the CIP projects is for the current budget year and may not reflect the total project cost. For a citywide comprehensive list of CIP projects, refer to the CIP section of the Budget..

^{* 2021} Amended Budget as of 8/13/2021

^{**} In April of 2017, voters approved the retention and spending of \$6 million that exceeded the TABOR revenue limitation, received by the City during fiscal years 2016 and 2017 (appropriated in 2017 and 2018 respectively). The ballot item required that funds only be used for stormwater projects located within and benefiting the City of Colorado Springs. The total shown for 2019 and 2020 Actuals include spending of the \$6.0 million for the TABOR Revenue Retention on stormwater projects, along with amounts that were previously budgeted in projects at the time when the stormwater function was in the General Fund.
